

## Support for EIZO CG210 Monitor MATCHPRINT Virtual Proofing System

July 22, 2005

---

**MATCHPRINT Virtual Proofing System – LCD** now supports the **EIZO CG210** monitor. Please use the following instructions to download and install the MVP-LCD EIZO CG210 Updater.

**Note:** The MVP-LCD EIZO CG210 Updater includes all prior fixes and updater information.

Prior to downloading the software, read the following requirements:

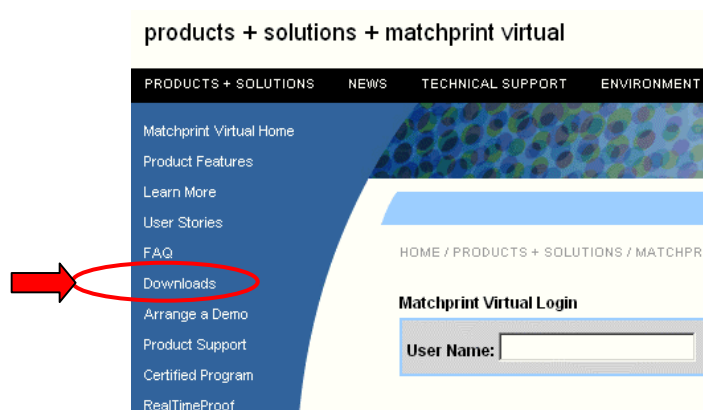

- **Hardware Requirement:** The hardware requirements are the same as for **MATCHPRINT Virtual Proofing System - LCD v3.1.0**.
- **Software Requirements:**

If any of the following requirements are not met, an error message displays and the installation is cancelled.

- The installed software must be **MATCHPRINT Virtual Proofing System - LCD v3.1.0** (or later).
- The **MATCHPRINT Virtual Proofing System - LCD v3.1.0** (or later) application must be installed in the default location.
- The **MVP- LCD EIZO CG210 Updater** software must be installed using the same login credentials (i.e., user name, password) that were used to install the original **MATCHPRINT Virtual Proofing System - LCD v3.1.0** software.

Complete the following steps to download and install the update:

1. Log on to your MACINTOSH system using the same login credentials (i.e., user name, password) that were used to install the original **MATCHPRINT Virtual Proofing System - LCD v3.1.0** (or later) software.
2. Use your Internet browser and go to: <http://www.kpgraphics.com/Matchprintvirtual/>
3. Click on the **Download** link on the left side in the blue arch:

4. Under Software, click on the **Matchprint Virtual download center**.
5. At the Matchprintvirtual Download screen, under **Released Products**, locate **MVP-LCD Eizo CG210 Updater** and click on **Click here**.
6. The installer (**MVP-LCD\_ Eizo CG210 \_Updater**) downloads to your desktop.
7. Locate the installer icon and double-click to launch the installation.
8. Enter the User ID **Name** and **Password** in the Authenticate screen and click **OK**.

**Note:** If a version earlier than v3.1.0 is installed, the user will receive the following message: “The default location required for this install could not be found. This install will be cancelled.” To upgrade to the latest version of MATCHPRINT Virtual Proofing System – LCD, please contact KPG technical support.

9. At the License Agreement, click on **Accept**.
10. At the “**MVP - LCD Eizo CG210 Updater**” screen, click on **Install**.

**Note:** If the logged-on user is not the same user that installed the v3.1 application or the application was moved to a different location, the following error message displays: “Application not found in expected location for current user. Please refer to upgrade installation instructions for proper installation. Installation will be canceled.”
